## ShawKwei investment creates Solutions Centre for AMOS

ShawKwei & Partners is pleased to announce the opening of AMOS Marine's new Headquarters and Solutions Centre in Singapore.

AMOS Marine is a leading maritime service and support solutions provider based in Singapore, and has been majority owned by ShawKwei since October 2014. The 280,000 square foot facility provides state-of-the-art warehousing, cold-chain storage, and marine engineering equipment.

With investment from ShawKwei, AMOS has continued leading the industry as a world-class solutions provider in the marine and offshore sector, including becoming the first company in Singapore's supplies industry to attain five ISO certifications across workflow process, business continuity management, food safety management, environmental management and occupational health and safety.

AMOS will also implement an industry leading full-scale automation over the coming 12 months.

ShawKwei is optimistic about Singapore's critical role in the shipping and supplies sector, and continues to look for related acquisitions across the Asia region.

### **About ShawKwei & Partners**

ShawKwei & Partners is a private equity manager investing in middle-market companies with operations in Asia.

ShawKwei is dedicated to building better businesses by partnering with management to identify and realize sustainable performance improvements in areas such as revenue growth, margin expansion, and capital efficiency.
